

The fees that enforcement companies and agents charge are set in accordance with the new regulations "The Taking Control of Goods (Fees) Regulations 2014" implemented on 6 April 2014.

APPLICATION OF FEES

>> Compliance stage – This fee covers activity from the receipt of the case. It includes the issue of a notice of enforcement, dealing with any contact from the person(s) who owe the debt and any processing of correspondence or payments

>> Enforcement stage – First attendance by the enforcement agent to the person's premises or doorstep. The fee includes all the work carried out at this stage so there are no additional visit charges.

>> 2nd Enforcement stage (HCE ONLY) - If the debtor refuses either to make any payment or to enter into an acceptable controlled goods then the matter moves to enforcement stage 2. If a payment arrangement, with a signed controlled goods agreement, is subsequently broken, the EA will re-attend the property either under enforcement stage 2 or the sales or disposal stage, depending upon the circumstances so far.

>> Removal / Disposal of goods - This covers activity from the first attendance at the property to remove the goods to a place of sale.
